

# “Making Students into Engineers”

UNDERGRADUATE STUDENTS...ARE YOU:

- A **self starter**?
- Interested in **energy conservation** or energy management?
- Challenged by **real world** engineering problems?
- A **team** player?
- Motivated by **opportunity**?

The Industrial Assessment Center (IAC) at the University of Illinois at Chicago has **PAID** positions available for this academic year for the right students.

- The IAC is a US Department of Energy sponsored program that provides energy assessments to small and medium sized manufacturing plants while providing engineering training to interested students.
- Since 2000, The UIC/IAC has graduated and placed 13 engineers into high paying positions.

Prerequisites:

- Good writing skills
- Two years of experience with Microsoft Excel and Word
- Basic research skills

What previous students have to say about the IAC:

“The practical knowledge I learned was extremely useful. In our one-day assessments, our team identified opportunities to improve how a company conducted business.”

-- Christine Walker, Graduate Student, Massachusetts Institute of Technology.

“My experience at the IAC taught me to grow as a person as well as a professional engineer. The skills I learned at the IAC proved highly desirable in an energy-industry job search.”

-- Kate Merrill, Project Manager, Energy Solutions

“The IAC gave me a head start in the energy engineering field, a field which I continue to work in today. I even met my current employer through my work at the IAC.”

-- Brennan Downes, Energy Engineer, Primary Energy

If you are interested please send your resume to Rob Miller at [rob@uic.edu](mailto:rob@uic.edu) or call (312) 355-2019.
